SUMMARY

IT professional with 6+ years of experience in UI and API development (Node JS, Express JS, Angular, MySQL, MongoDB, AWS, Redis, APIGEE, Splunk etc). Cohesive team worker, having strong analytical, problem solving and interpersonal skills. technical expertise in Full Stack application development, application maintenance & bug fixing, proficient in development using JavaScript and TypeScript.

KEY SKILLS

Software Development • DevOps • Database Skills • Migration (Technology and Data)
• Leadership & Training • Process Improvement • Team Incubation • Communication

TECHNICAL SKILLS

Tools/Technology: Node JS (Express JS, Nest JS, Fastify), Angular 6+, React (Mid-level)
Cloud: AWS (EC2, S3 Bucket, Lambda, cloud watch, API gateway, SQS, SNS), Azure
Database: MySQL, MongoDB, Firestore, Redis, GCP
Others: Splunk, Jest, Jasmine (Unit test), Heroku, SendGrid, Twilio, Socket, Web scraping, FCM, Cash free, Stripe, Telr, Paytm, Netlify, Docker, Live streaming (openTok), Big Query, MSAL authentication, Facebook, Google
Methodology: Agile

EDUCATION

Institute of Management Studies | Ghaziabad, IN   Jun '15 - Jun '18

Masters in Computer Application

International Business College | Patna, IN   Jul '11 - Jun '14

Bachelor in Computer Application

KEY PROJECTS

Client and Domain: Humana (Health Care) | Tech Stack: Full Stack | May '22 to Till Now
- Objective: Migration, performance improvement, reduced costs, increased scalability, or better alignment with future technology trends.
- Solution: With new technology evolving every day we migrate our old .net and AngularJS application to latest NodeJS and Angular 13+ framework.
- Key Achievement: Automated migration process with industry standard tools, updating outdated technology.

Client and Domain: Live Stage (Entertainment) | Tech Stack: MEAN Stack | Apr '21 to Jan '22
- Objective: LiveStage is a live streaming and ticketing platform which hosts live/interactive performances from artists.
- Solution: Developed REST API using NodeJS to deliver on-demand quickly and live-stream videos directly from our website and app
- Key Achievement: Developed rest API using third party library OpenTok (for HLS and WebRTC)

Client and Domain: TangoRide (Travel) | Tech Stack: MEAN Stack | Jan '20 to Feb '21

- Objective: TangoRide is a ridesharing and carpooling app, but it's also intended to be a gateway to a community of likeminded people. Drivers are able to offer instant or scheduled lifts to fellow passengers who are heading in a similar direction.
- Solution: Developed REST API using NodeJS and Admin panel using Angular 6
- Key Achievement: Developed rest API and implement ride matching algorithm, payment gateway(stripe) shared by client.

PROFESSIONAL EXPERIENCE

Tata Consultancy Services | Noida, IN   Mar '22 - Present

IT Analyst C2

- Led successful conversion of entire project from .NET and AngularJS to Node.js and Angular 12
- Implemented new solutions such as APIGEE, GCP logs, and UI after analyzing customer requirements.
- Developed a web application to automate database/File load process (as per business user), improved efficiency by 65%
- Performed root cause analysis, multiple issues, and identify bugs and rolled out fixes to production within 24 hours

Vinove Software and Services India | Noida, IN   Nov '20 - Feb '22

MEAN Stack Developer

- Played a key role in the development of a new feature, resulting in a significant 15% increase in customer engagement.
- Improved codebase efficiency by optimizing existing code, resulting in a 10% reduction in processing time.
- Consistently met project deadlines and received accolades for dedication and meticulousness.

Fluper Ltd. | Noida, IN   Jan '18 - Nov '20

Node JS Developer

- Collaborated with front-end developers to seamlessly integrate user-facing elements with server-side logic.
- Gained experience and knowledge with new technologies and methodologies.
- Developed and maintained web/mobile applications using node.js, MongoDB, express, JavaScript, and bitbucket.

CERTIFICATIONS

- Oracle Infrastructure found. Assoc./ Infrastructure operation Assoc./DB specialist
